1. The following is an examiner's statement of reasons for allowance: for claim 1, prior art of record fails to show or fairly suggest a cross section of at least one of the cam cylinders being continuous where the cross section is a plane parallel to at least one of the cam surfaces. As defined by the disclosure and reiterated by applicant, "solid" is synonymous to "continuous". The solid or continuous cam cylinder with flat planar contacting surface eliminates the need for complex tapping of pintle acceptance openings (page 10, lines 11-14 of applicant's disclosure). Prior art to Foltz (3,083,402) has openings in cams 30, 46 receiving a hinge pin 58.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuck Mah whose telephone number is (571)272-7059. The examiner can normally be reached on 5/4-9.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Swann can be reached on (571)272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
